

BRITISH TROOPS START INVASION OF BULGAR SOIL

Two Divisions Are Enroute From Salonika—40,000 Men Thrown Forward to Resist Teutonic Advance.

OTHER FORCES ENTRAINING

English Likely to Go Into Territory Where French Are Now Operating—Endeavor Is to Break Up Central Allies' Attempt to Go to the Relief of Constantinople.

ATHENS, Nov. 5.—Two divisions of British troops are en route from Salonika to Bulgaria. This means a group of 40,000 men to resist the advance of the Teutons across to Constantinople. Other forces are entraining.

By a short overland movement, they can enter Bulgaria near Strumitsa, or, by continuing by rail, can reach the eastern frontier near the Aegean seacoast in the vicinity of Zanthi. Inasmuch as the French are already operating about Strumitsa it was deemed more likely the British will go to that section. It is believed the plan is to divert the Bulgarians from Serbia by a formidable invasion.

Baseless Rumors Under Ban.
LONDON, Nov. 4.—The Daily Express understands that the police are to prosecute under the defense of the realm act persons of any nationality circulating baseless rumors likely to cause unrest, such as are current in London daily. The penalty demanded is hard labor.

Wheat Drops Cent Today in Chicago Pit

CHICAGO, Nov. 5.—(Special)—At the close today, Dec. 11.04 3/4; May 11.64 1/2.

Portland.
PORTLAND, Ore., Nov. 5.—(Special)—Club 20 1-2 bid, 23 asked. Election 24 bid, 27 asked.

Liverpool.
LIVERPOOL, Nov. 4.—Wheat—Spot No. 2, Manitoba, 11s 5d; No. 3, 11s 4d; No. 3 hard winter, old, 12s 1/2; No. 2 Chicago, new, 11s 2d; Corn—Spot La Plata, 7s 7d; Flour—Winter patent, 41s.
In American terms the highest price for wheat in Liverpool is 11.75 4-5 per bushel.

Excellent Exhibits Are on Display at Hermiston Show

HERMISTON, Ore., Nov. 5.—(Staff Correspondence)—Hermiston's annual Hog and Dairy Show has scored an unqualified success today from the standpoint of good exhibits, attendance and enthusiasm. Tomorrow will be an even more interesting day from the fact there will be a school parade contest and pageant.

Today one of the big features of interest has been the student stock judging by teams from the high schools of Pendleton, Hermiston, Echo, Stanfield, Vincent, Weston, Ferndale and Heppner. There are

A. L. Sparling, Well Known in This City, Faces Penitentiary

A. L. Sparling, sometimes known as Charles Paul, who made Pendleton his headquarters about a year ago and who left here under a shadow, has come to grief at Twin Falls, Idaho. Yesterday he was convicted of obtaining money under false pretenses and tomorrow will be sentenced to the penitentiary.

The following dispatch from Twin Falls, Idaho, tells of his conviction: A. L. Sparling, purporting to be associated with Cyrus T. Williams, of Union, Ore., in a land and livestock company, today was pronounced guilty of obtaining money under false pretenses after the jury had deliberated 11 hours. Sentence will be pronounced Saturday. The penalty for the offense is penitentiary imprisonment from one to 14 years.

The trial has attracted much attention owing to the social prominence of the complaining witness, Mrs. Lena D. Manhard. Sparling was promoter and fiscal agent of the Park

Crazed Man Kills 2; Fatally Wounds Others of Family

COMMITTS SUICIDE AFTER WHOLESALE BUTCHERY—HAD BEEN OUT OF WORK.

SEATTLE, Nov. 5.—George Roberts, 45, killed two members of his family, fatally wounded two others and then killed himself. It is believed he was insane through despondency. He first crushed his wife's head with an axe, then stepped to an adjoining room and struck his son George, 16, on the head. He encountered his daughter Ella, 22, who was blind, in a hallway and shot her dead. He probably fatally wounded his daughter Villa, 17. With the same weapon he shot himself through the heart. Mrs. Roberts, the son and the younger daughter, were alive when the police arrived. Mrs. Roberts died at a hospital.

Roberts fell from a ladder five months ago and injured his spine. Since then he had been out of employment. He grew more despondent daily. To neighbors, Robert recently remarked he would be "better off dead."

COUNTY AND STATE TAX TO BE LARGER THAN IN YEAR PAST

TENTATIVE BUDGET IS DRAWN UP BY COURT—CHANGES MAY YET BE MADE.

Yesterday afternoon the county court drew up a tentative budget of expenses for the next year and, while there may be some changes made later, there is no doubt that the expenses for next year will be greater than those of the past year, and, in all probability, the county and state tax will be higher.

The biggest increase made was in the road fund, the court providing for \$120,000 in this fund instead of \$100,000 as last year. In view of the road improvements contemplated, this increase is believed necessary. Another item swelling the 1916 expense which was not included in the 1915 budget at all, is the \$12,000 for library buildings, \$10,000 for the Pendleton central library and \$2,000 for the Milton building. Another big item is the compulsory tax of \$75,000 which the law states must be levied upon the school districts which have no high school and whose pupils go to other high schools. Still another large item, not included in the last budget, is \$20,000 for the expense of holding the elections in 1915. There is an increase of \$20,000 in the county school fund, also compulsory, inasmuch as the law states that the

Three Wizards Meet at San Francisco Exposition

LUTHER BURBANK THOMAS A. EDISON HENRY FORD

The picture shows Luther Burbank, who performs miracles with plants, Thomas A. Edison, the electrical wizard, and Henry Ford, the automobile genius, in a friendly pose when the three met at Panama-Pacific exposition at San Francisco the other day.

Special Train to Handle Crowd for Big League Game

PEOPLE OF THE WEST END OF THE COUNTY WILL BE GIVEN CHANCE TO ATTEND.

In order to accommodate the people of the west end of the county, who wish to see the National and American All-stars play in Pendleton, a steam train will be substituted for the regular motor on Saturday, November 13, and it will be held in Pendleton until 9 o'clock in the evening. This was the announcement received from Portland this morning by Agent T. F. O'Brien in response to a request from the local committee.

The special cars, which carry the players, will be held here until 9 o'clock and will be attached to the west end train and taken to Umatilla. There they will be picked up by the Portland-Spokane flyer and taken on to Spokane. This arrangement, too, was suggested by the local committee.

The committee, comprised of Carl Cooley, Henry Collins, Leon Cohen, John Dickson and Lee D. Drake, has about completed arrangements for the game and the entertainment of the players while here. The entertainment will include the staging of a play round-up after the game. This feature will not only give the visitors something distinctive by which to remember Pendleton but it will prove the medium of some good publicity for the city. Incidentally it will give the crowd in attendance a double value for their money.

Bucking, bulldozing, fancy roping and riding and a few other frontier stunts will be staged at the miniature Round-up. A telegram was received this morning from Buffalo, Vernon, stating that he would be here to help in the bulldozing and roping events. Lee Caldwell, champion broncho buster of the world, has also consented to help out and there will be many other cowboys here.

The all-stars will arrive in Pendleton on No. 17 at noon and will be met by stage coaches and taken to the grounds. After the game they will also be entertained. A big delegation of fans is expected from such of the towns of the county, sub-committees being at work in every community advertising the double attraction.

NEW APPARATUS TO TREAT PATIENTS NOW INSTALLED

MOST MODERN METHODS ARE IN USE AT EASTERN OREGON STATE HOSPITAL.

Hydrotherapeutic apparatus, the use of which is said to be the most modern method known in the treatment of mental and nervous diseases, has just been installed at the Eastern Oregon State Hospital at a cost of \$4,000. The apparatus is nothing more than a nebulator system of scientific baths of all descriptions.

Several rooms in the administration building have been fitted up with the apparatus and as soon as the walls have been water-proofed the physicians will begin using the baths in treating the curable patients. Supt. W. D. McNary stated yesterday that he expected high results from the use of this modern apparatus.

In one room are two large enclosed, marble bath cabinets. One of these is for giving patients an electric bath.

Terminal Work is Being Rushed to Early Completion

100 MEN ARE NOW ON THE JOB AT PILOT ROCK JUNCTION YARDS.

With 100 workmen on the job the task of completing the terminal and necessary buildings at Pilot Rock Junction is being rushed as rapidly as possible. Of the men at the junction, half are employed by the Netleton, Bruce, Esbach company and half by the railroad company itself. The railroad is doing the track laying work direct and the tracks are now all down though not yet ballasted. A. F. Marlon, of the O.-W. R. & N. engineering force, is directing this end of the work. Mr. Marlon left last night for Portland to be gone until Monday.

The contracting company is now devoting chief energies to constructing the round house and power house. The excavating work for the power house is now underway and very shortly the building will be started.

The foundation work for the round house is now well under way. Six of the 10 runways have already been finished as far as the concrete work is concerned and yesterday evening were being concentrated on the outer wall of concrete at the side towards the hill. The steel material for the big turntable is now on hands at the yard and will be placed in due time. The turntable weighs 80 tons.

The warehouse has already been constructed and is in use. This building is of corrugated iron where as the round house and power house will be of brick with concrete foundation work.

The work of drilling for the well has been started under the supervision of George E. Scott. A 12 inch drill is used and the well will be sufficiently deep to get water from a low level, thus insuring purity of supply. A test was made of the water toward the surface and it was found unsuitable for human use.

P. J. Eschbach and H. A. Hamilton, both of the firm of Nettelin, Bruce, Esbach, are now here for the purpose of speeding the completion of the company's contract.

Serbia Drenched in Blood of Her Massacred People

GERMANS COMMIT ATROCITIES WORSE THAN IN BELGIUM, SAYS REPORT.

GENEVA, Nov. 5.—Serbia is drenched with the blood of massacred victims of the Germans, more frightful than those of Belgium, according to Swiss newspapers. Wholesale massacres are alleged to have occurred at Dulica, Yplana, Selvac, Palanka, Sopot and Losovic. The German excuse is civilians fired from the houses. Local authorities deny it. The once rich Morava valley is devastated.

Handsets are in ruins, either shelled or deliberately burned. Corpses are scattered thickly, including considerable number of women, whose number in the trench fighting is fast increasing. Occasionally one sees a bullet marked wall, where the Germans executed a civilian.

Will Recognize Carranza.
WASHINGTON, Nov. 5.—The European allies will recognize Carranza as soon as Italy has prepared a note in their behalf, the state department was advised.

How Zeppelins Damaged London

The British censor has refused to permit descriptions of the last Zeppelin raid on London to be sent by cable, but this photograph of a house in the city shows the great damage done in the last raid. The house was struck by a bomb dropped from a height of a mile and it was wrecked and those within killed. The censor would not have permitted the photograph to be sent to the United States, but it has been prevented by the censor. The house was brought by passengers.

KING MAY FORCE DISSOLUTION OF THE PARLIAMENT

Constantine of Greece is Determined to Defy War Party and Keep Country Out of European Broil.

ACTION WILL BE RESENTED

Pro-War Supporters Declare Nation Has Gone on Record in Favor of War and Move to Dissolve Parliament at This Time Would Not Be Tolerated—Election May Come.

LONDON, Nov. 5.—The Greek and Serbian ministers conferred today, presumably regarding helping Serbia as a result of the Greek cabinet crisis.

ATHENS, Nov. 5.—Though parliament expressed its disapproval of neutrality advocates and forced the resignation of the Zaimis cabinet, King Constantine seemed bent on defying the Venizelos war party. Both press and politicians believe the king will dissolve parliament and force another election instead of returning Venizelos to power. The result will be that Zaimis will hold office at least two months longer, while the election is held. Meanwhile Greece will remain neutral, in keeping with the king's policy. Pro-war supporters resent a dissolution move.

Venizelos advocates said a dissolution move six months ago would have been perfectly proper because there would have been no expression of popular opinion. Now, however, the nation is on record in favor of war, through the election of a pro-war chamber of deputies with Venizelos at the head.

ENGLAND'S KING RECOVERS SLOWLY FROM HIS INJURY

EXPERIENCES UNPLEASANT NIGHT AND SUFFERS CONSIDERABLE PAIN.

LONDON, Nov. 5.—King George last night passed the most comfortable hours since he was injured. He is still in pain, especially when he moves. It is believed he was more injured than physicians admit. A letter from Corporal Fred Clark at the front said the king was pinned under the kicking horse and had to be dragged out by staff officers. He had to be removed to the rear by an automobile before his injuries were attended.

U. S. MUST BE IN SHAPE TO GUARD SELF FROM FOES

President Wilson Outlines His Defense Program Before Enthusiastic Audience in New York.

BRYAN DOESN'T LIKE TALK

Ex-Secretary of State Thinks President Said Things Which are Opposed to Our National Traditions—Thinks Spirit of Christianity Better than Big Guns.

NEW YORK, Nov. 5.—President Wilson opened the administration campaign for its national defense program in a comprehensive and carefully prepared address delivered here last night at the Manhattan club banquet. He declared solemnly that the United States has no aggressive purposes, but must be prepared to defend itself to assure "full liberty and self development." Significantly he said, that "with our selves in this great matter we associate all the peoples of our own hemisphere," adding that "we wish not only for the United States, but for them the fullest freedom of independent growth of action."

The president was received with enthusiastic applause as he entered the banquet hall and during his address. The hall was decorated with American flags and filled even to the galleries with democrats happy over their victory of Tuesday in New York City. When the president arose to speak every one jumped up and applauded until he was forced to signal for quiet.

Force Speaks in Loud Voice.
"Within a year," said the president, "we have witnessed what we did not think possible, a great European conflict involving many of the greatest nations of the world. The influences of the great war are everywhere in the air. All Europe is in battle. Force everywhere speaks out with a loud and imperious voice in the Titanic struggle of government and from one end of our dear country to the other, men are asking one another what our own force is, how far we are prepared to maintain ourselves against any interference with our national action or development."

"In no man's mind, I am sure, is there even raised the question of withdrawal of force on our part against any nation or any people. No matter what military or naval force the United States might develop, statesmen throughout the whole world might rest assured that we were gathering that force not for attack in any quarter, nor for aggression of any kind, not for the satisfaction of any political or international ambition, but merely to make sure of our own security."

Want Men Well Trained.
"In accordance with our American traditions we want and shall work for only an army adequate to the constant and legitimate uses of times of international peace. But we do want to feel that there is a great body of citizens who have received at least the most rudimentary and necessary forms of military training; that they will be ready to form themselves into a fighting force at the call of the nation and that the nation has the munitions and supplies with which to equip them without delay, should it be necessary to call them into action. We wish to supply them with the training they need and we think we can do so without calling them at any too long away from their civilian pursuits."

The president called upon "men of all shades of political opinion," to rally to the support of the program.

WASHINGTON, Nov. 5.—Signs of a break between the president and Bryan, over the administration defense program became unmistakable today. Bryan declared he viewed the president's New York speech on preparedness with "sorrow and concern."

"The president is doing what he believes is his duty, but I feel it my duty to dissent," Bryan declared. "We cannot criticize his motives, as he has given his views with clearness and emphasis but those who differ with him under like obligations express themselves with equal clearness. The president will not assume he is more deeply interested in the country's welfare than the millions who elected him temporarily to be their spokesman. The plan he proposes is not only a departure from our traditions, but a reversal of our national policy. It not only is a menace to our peace and safety, but is a challenge to the spirit of Christianity which touches us to influence others by example, rather than by exciting fear."

German Sub Is Taken.
LONDON, Nov. 5.—The British captured a German submarine in the North sea and made the crew prisoners. It was officially announced.
